

Havana featuring Nero

specifications

AT MAGNET TRADE WE NEVER COMPROMISE ON QUALITY, AND ENSURE THAT OUR CRAFTSMEN ONLY USE HIGH GRADE MATERIALS THAT MEET RIGOROUS STANDARDS.

Our attention to detail is also second to none, and every cabinet carries a 15-year guarantee, which means you can relax into your new kitchen with complete peace of mind. Most Magnet Trade cabinets are rigid factory built and designed to withstand heavy use, with the majority having standard or premium cabinet options.

STANDARD CABINET OPTIONS

Standard White

1. Cabinets are manufactured with a durable 18mm mfc; floor unit front and back rails are 22mm thick for additional rigidity.
2. Sturdy clip on hinges by Blum make it easy to adjust doors up and down or left and right for perfect alignment.
3. All drawers are metal sided as standard with smooth roller runners.
4. The majority of our base units have height – adjustable legs to cope with uneven floors.
5. Our standard floor units have backboards to facilitate pipe work and plumbing. They also have open tops for simple installation of worktops, sinks and hobs.
6. All units are supplied with shelves* that are adjustable to three positions. Shelves feature a silver colour ABS thick edge which both protects and maintains the aesthetic appearance of your cabinet for years to come.
7. Clip on plinths are available for a neat finishing touch in each.

* Glazed units are supplied with glass shelves.

QUALITY

All Magnet Trade kitchen ranges and worktops have been awarded the British Standards Institute Kitemark Licence number BS6222 and KM34012 Part 2 level 'H' specification (Heavy Domestic Use). Also, most Magnet Trade kitchen ranges received the F.I.R.A. Gold Award, an independent guarantee of product quality and craftsmanship.

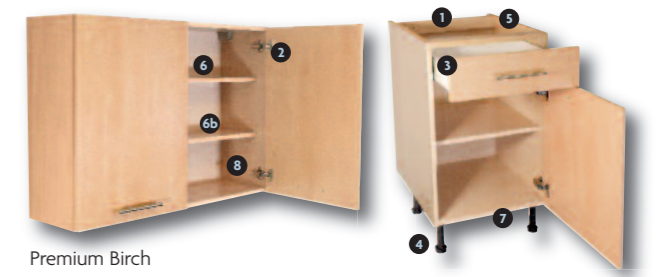

GUARANTEE

For long lasting strength, we have developed our own rigid construction. To prevent water ingress, cabinet edges are sealed. Each kitchen cabinet carries a 15-year guarantee. All sink units and corner floor units are now universal. All appliance housings and corner floor units are flat pack.

PREMIUM CABINET OPTIONS

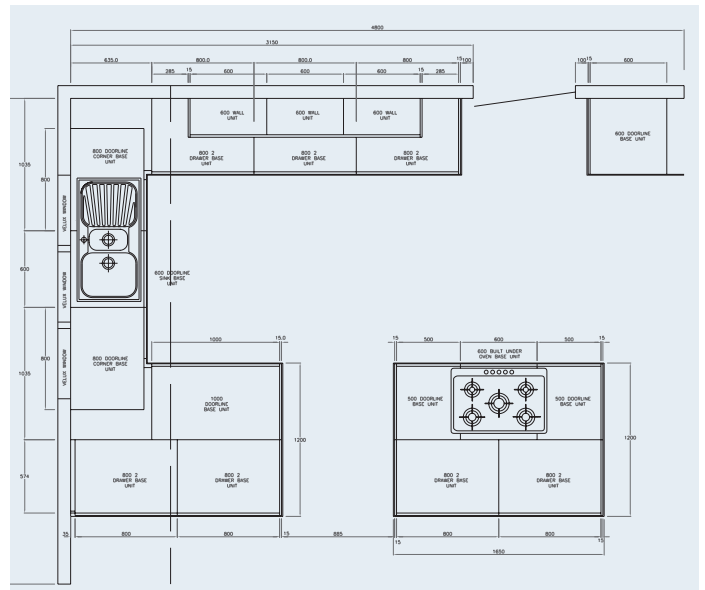

Premium Birch

Premium White

Magnet Trade offer a selection of premium cabinets which are standard on Princeton and Kendal ranges and are available on most other ranges.

1. Premium cabinets are manufactured as standard cabinets, but are also available in white or birch.
2. As standard cabinet options plus with Blum soft close drawer system incorporated.
3. The Blum soft close tandembox which reduces slamming and trapped fingers.
4. The majority of our base units have height – adjustable legs to cope with uneven floors.
5. Our floor units have backboards to facilitate pipe work and plumbing. They also have open tops for simple installation of worktops, sinks and hobs.
6. All units are supplied with shelves that are adjustable to three positions.
- 6a. White cabinets feature shelves* with a silver colour ABS thick edge which both protects and maintains the aesthetic appearance of your cabinet for years to come.
- 6b. Birch cabinets feature a colour coordinated birch front edge
7. Clip on plinths are available for a neat finishing touch in each.
8. Complimentary cover caps finish the internal cabinet appearance.

design and planning service

JUST TALK TO YOUR TRADE PROFESSIONAL

To make your kitchen improvements a straight-forward process, Magnet Trade's design and planning service is available through your Trade Professional. Magnet Trade's dedicated design team will do all the work for you including a 3D computer generated drawing of your kitchen layout to ensure that everything's just right from the word go.

Our specialists will use their knowledge of ergonomic design to come up with the ideal solution for your space, be it L-shaped or U-shaped, a galley kitchen or a linear arrangement.

They will even pop in appliances and furniture for a truly complete picture of how your dream kitchen will look.
